

DANGER! MAY CAUSE DAMAGE TO EYESIGHT. Directly looking at or shining the light into another person's eyes, may cause temporary blindness or irreversible eye damage.

DANGER! LITHIUM-ION BATTERIES ARE COMBUSTIBLE. Improper use or lack of maintenance could cause permanent damage to the battery, flashlight or inflict bodily harm. Reference the "18650 Lithium-Ion Battery Maintenance Guide."

CAUTION! FLASHLIGHT MAY GET HOT. This is normal during extended periods of use. Never directly touch the Telescopic Focal Lens, or put the flashlight back in the storage case during or after immediate use.

NOTICE! TactX accepts no liability for damage and injuries arising from misuse, modifications, negligence, or third-party batteries and chargers that are incompatible with the TactX-LM500 LED Flashlight and its accessories.

CAUTION! DO NOT SUBMERGE FLASHLIGHT IN WATER. This will cause damage to the flashlight and battery. The TactX-LM500 is NOT intended for underwater use.

**FOR SAFE OPERATION, READ ALL
MANUALS & GUIDES BEFORE USE!**
